**Information by the Research Support
Centre of 20 April 2022**

on: submitting research project funding proposals under the Marie Skłodowska-Curie Postdoctoral Fellowships (PF) arrangement.

This is to inform you that the European Commission has announced the **Marie Skłodowska-Curie Postdoctoral Fellowships** call (call identifier: HORIZON-MSCA-2022-PF-01-01) under the new Horizon Europe programme.

The goal of the programme is to enhance the creative and innovative potential of experienced researchers, wishing to acquire new skills through individual interdisciplinary research training, and international and inter-sectoral mobility.

A proposal will be prepared with a supervisor; should the grant be awarded, the supervisor will provide assistance to the employed researcher in matters of science and organisation, and will be responsible for contacts with Research Executive Agency.

The programme deals with two types of projects:

- 1) **European Fellowships**: which enable researchers of all nationalities to carry out grants from 12 to 15 months in any EU country or a country associated with the Horizon Europe programme.
- 2) **Global Fellowships**, which enable researchers from EU or countries associated with the Horizon Europe to implement their grants in a non-associated third country, as secondments of 12 to 24 months: a mandatory 12-month return phase.

The call for proposals is open until 14 September 2022, 5 p.m. (UTC+1).

The renewed submission of the proposal by a researcher for the post-doctoral fellowship in the same institution in 2022 will be possible only for projects which in 2021 received a score equal to or higher than 70%.
